SUPERVISOR'S REPORT.

The following report is respectfully submitted by the Supervisor of Schools:

For the financial condition of the schools you are referred to the Auditor's report.

During the first part of the fiscal year the schools were under the supervision of the Rev. Mr. Mitchell, therefore this report can only show the condition of the schools during the fall and winter terms.

The High school, as during the past four years, was under the management of Mr. Harry R. Fling till the close of the spring term, which closed the high school year, and I have reason to believe that the school under his instruction maintained its previous high standard. The school during the fall and winter terms has been under the management of Miss Ida B. Newhall. Miss Newhall entered upon her task as principal of the school under the natural prejudice against a female principal, the school having been in the hands of a male teacher from its beginning. I think this has in a large measure worn away, and what was a spirit of insubordination on the part of a few of the larger boys has disappeared, and now a high standard of discipline is maintained and without recourse to arbitrary measures. The interest of the scholars is well maintained and the instruction fully equal to schools of this grade.

The Grammar school during the spring and fall terms, as heretofore, was under the charge of Miss Rosa G. Fling, and I cannot say more than that under her management the school was thoroughly satisfactory. The winter term is under the charge of Mrs. Anna Fisk. Mrs. Fisk has against her management the prejudice resulting from a change of teachers. She is hard working and has the interest of the school at heart.

The Primary school is in charge of Miss Eva Jordan. This is Miss Jordan's first school and she has in addition to her inexperience the most unsuitable and illy-arranged school room to be imagined. Miss Jordan's school lacks method and discipline, and although she is a very hard worker and thoroughly interested in her school the results are very unsatisfactory. With more experience, less zeal and better advantages she may have better success.

We are sorry to see our schools fall in the least from their former high standard. It shows that too great care cannot be exercised in the selection of teachers. Some more suitable place must be provided for the small school, but this I leave for your consideration at the annual town meeting.

Respectfully submitted,

F. G. STAPLES, Supervisor of Schools.
