By Its Officers

OUR FLAG

For the Year Ending December 31st

1940

All Taxpayers should read the following requirements and comply with:

Section 70, Chapter 13, Revised Statutes of Maine, 1930:

“Before making an assessment, the Assessors shall give seasonable notice in writing to the Inhabitants, by posting notifications in some public place in Town, or shall notify them in such other ways as the Town at its Annual Meeting directs, to make and bring in to them true and perfect lists of their polls and all their estates, real and personal, not by law exempt from taxation, of which they were possessed on the first day of April of the same year. If any resident owner, after such notice, does not bring in such lists, he is thereby barred of his right to make application to the Assessors or the County Commissioners for any abatement of his taxes, unless he offers such list with his application and satisfies them that he was unable to offer it at the time appointed.”

THE FINEST BEACH IN THE WORLD

Historical Old Orchard Beach

In the summer of 1614 a sloop came around Wood Island and anchored near Googins Rock in Old Orchard, with Capt. John Smith of Jamestown, Va. Capt. Smith was very much taken with the beach and drew a sketch of Old Orchard Beach and sent it to Sir Ferdinand de Gorges in England as the most beautiful beach he had seen.

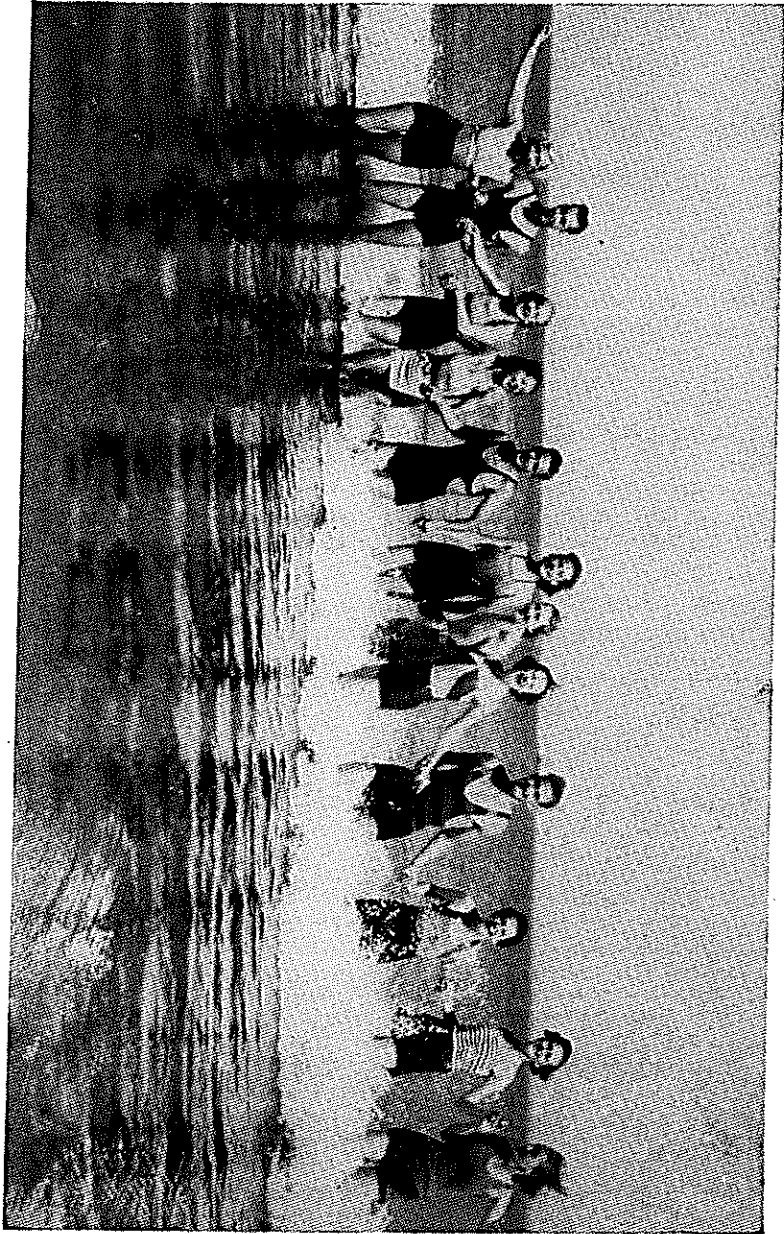

One of the earliest settlers was Thomas Rogers, who planted fruit trees and grapevines which he took from Wood Island nearby. The apple trees which he planted remained 150 years and became the "Old Orchard" from which the place takes its name. Part of this old apple orchard still remains near the old railroad. He afterwards gave this property to his son-in-law, Patrick Googins, for whom these rocks were named in 1737.

From the north, east, south and west, thousands came to enjoy themselves where the pines and salt air meet at the finest Beach in the World, Old Orchard Beach, Maine.

The twenty-sixth of June has for many years been a gala day at Old Orchard Beach, Maine. There used to exist a popular tradition that on this day the waters of the ocean were especially endowed with healing properties, that at this time they were "troubled" and "whoever stepped in was cured of whatever disease he possessed." This led thousands to flock to Old Orchard Beach to be healed. Old age came to be made young, mid-age to be strengthened, children and infants were dipped annually to insure them against disease and death. It is also said that the air at Old Orchard is charged with an invigorating element and those suffering from diseases of the throat and lungs have been benefitted by even a brief sojourn in this cool and strengthening climate.

First Aid stations were set up and serviced for visiting guests—The Three Quarter Century Club and a day of Marathon Races.

Assisted in training Life Guards in First Aid and setting up First Aid Stations on the Beach.

Classes in Home Hygiene and Care of the Sick carried on and also classes in First Aid.

Report of Service rendered in Schools to School Children submitted under Superintendent's report in School Section.

Contact and cooperation with the following agencies has been most beneficial to many persons and to the Community:

- State Department of Health and Welfare
- State Bureau of Social Welfare
- Home for Little Wanderers, Boston
- Children's Hospital, Boston
- Maine General Hospital
- Maine Eye and Ear Infirmary
- Edward Mason Dispensary
- Local Hospitals
- W.P.A. (Woman's Division)

Professional and Service

N.Y.A. Employment for Girls

The increased demands on this department have necessitated the service of an assistant during the extremely busy periods.

The Community was fortunate in having a capable and willing nurse, Miss Agnes Hoctor, a resident of Old Orchard Beach, to assist as required.

I wish to express my sincere appreciation to the physicians, hospitals, organizations and varied departments for their co-operation which has made possible a Public Health Service to the Community, including Immunization, School Nursing, Clinic, Infant and Child Welfare, Nutrition, Health Education, as well as Bed-side Nursing to the sick.

Respectfully submitted,

HARRIET E. HARBIG, R.N.

REPORT OF PUBLICITY CLERK

As Publicity Clerk for the Town of Old Orchard Beach Publicity Bureau it has been my pleasant duty to assist in carrying on a program for the Publicity Bureau, supplying general information for the Summer 1940.

The funds appropriated at the annual Town Meeting to carry on the Publicity Department were largely expended in the maintenance of three large electric signs which effectively attract and aid the visitors by marking the approaches to Old Orchard Beach. Advertising was placed in many leading newspapers in the United States and Canada and I found that this sort of advertising brought in many inquiries.

Letters of inquiry concerning Old Orchard Beach came in very early, several in March, and increased each month, the largest number of inquiries coming in June. Every letter that came into the Bureau was answered, and with these answers were enclosed Old Orchard Beach literature.

Inquiries were as follows:

Camps	77
Hotels	256
General Information	475
Real Estate	57
Rooms	37
	<hr/>
Total Inquiries	902

A large number of Bureaus and Railroad Stations were kept supplied with our Old Orchard Beach booklets. This service helped a great deal in directing the tourist here. These bureaus and stations were resupplied several times during the summer.

At various times during the season we had many letters from men and women seeking work, these were turned over to the Maine State Employment Service.

A new feature this year was the selling of Old Orchard Beach stamps. These were purchased by the Selectmen and sold at a nominal sum through the publicity office. Quite a few of these stamps were distributed.

Guests of Old Orchard Beach were very appreciative of the service rendered by this Bureau. Hundreds of Road Maps and other Literature were distributed through this Bureau.

The Publicity Bureau wishes to thank and express its sincere appreciation to all who made it possible to carry on this important work throughout the season.

Respectfully submitted,

ELEANOR ROSS,

Publicity Clerk

Old Orchard Beach Publicity
Bureau.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Honorable School Committee,

Board of Selectmen, and
Citizens of Old Orchard Beach.
Ladies and Gentlemen:

The educational advancement in the Old Orchard Beach schools has been satisfactory in each of the various departments. Indeed, there have been developments in curriculum enrichment which are most satisfactory and now promise a continued development for some time to come.

The school census which increased to a new high in last year's report is topped by a further increase this year. There was a report on April 1 of 660 boys and girls in Old Orchard Beach between the fifth and twenty-first years of age. This is the largest census enrollment for which we have accurate names and addresses. This growth is equivalent to an entire class room over and above the previous year. If this trend holds for any length of time, and there is no indication it is temporary, the elementary facilities will be overcrowded.

In September when the schools were opened, every school room in the Elementary and Old High School buildings housed a full class of pupils, and the Kindergarten was held in the basement of the Elementary School.

There are now two first grades, two second grades, two third grades, two fourth grades, and next year there will be two fifth grades but there will be no room except the basement for the extra grade.

You may recall that in some previous reports, there has been indication that your Elementary buildings would be taxed to capacity. That time has now arrived. Moreover, there are many people among your citizens

who thought that the Old Orchard Beach High School would never, in their day, be used to capacity. However, the large classes developing on the elementary level will within two years bring the High School pupil load to capacity. This growth has been persistent over the past several years and the end is not in sight.

The school teacher load is distributed as follows: There are three special teachers which represent Manual Training, Domestic Science and Music. In the Junior-Senior High School, there are seven teachers. While there are eleven teachers in the Elementary schools and one teacher in the Kindergarten department. This makes a staff of twenty-two teachers in all.

Transportation

Transportation of public school pupils has been extended on East Grand Avenue to the Scarboro line in the circuit to Milliken's Mills.

The transportation is carried in two routes, one takes in the Ocean Park and Half Way district, and the other takes in the East Grand Avenue and the Milliken's Mills Route.

There are 80 pupils in the Ocean Park and Half-Way district who are entitled to this transportation service. There are 34 pupils transported from the Milliken's Mills district and 16 pupils on East Grand Avenue to the Scarboro line. This makes a total of one hundred thirty pupils eligible for transportation to the public schools. Of this number 93 attend the Elementary School, 13 attend the Junior High and 24 attend the Senior High School. This coming year, the numbers will be increased considerably.

Repairs

The repairs have been handled by Mr. John Kennett. Much has been done for the money expended. The Old High School building was painted during the summer vacation.

There were changes made in the electrical services in the elementary school and at the New High School. The electric clocks at the New High School had to have heavier transformers to carry the electric intake at the school. This required considerable expense.

The usual repair work and upkeep given the interior of the school buildings included: floor cleaning and top dressing, varnishing seats, desks, furniture, and the usual window repairs and cleaning.

Your school buildings are in a very good state of repair and are kept in a sanitary and wholesome condition by the constant attention given to health problems in your schools. They will need considerable upkeep the coming year.

The Teaching Staff

There have been a considerable number of changes in the teaching staff this past year. The Science and Mathematics position is being filled by Mr. Winthrop Grant Smith. Mr. Smith is a graduate of the Needham High School. He has a B.S. degree from Massachusetts State College. He has attended Bridgewater Teachers' College and Boston University. He is known to many of the local citizens since he has summered at Old Orchard Beach for many years.

Raphael William Greene was elected to the Commercial department. Mr. Raphael W. Greene is a graduate of Howland High School and Higgins Classical Institute. Mr. Greene's professional schools were Beal Business College and Maine School of Commerce.

Marion Olive Allen is a graduate of Gorham Normal School and has done work toward a B.S. degree at the University of Southern California. Miss Allen did her first teaching in Morovis, Puerto Rico. Miss Allen is teaching the extra fourth grade in the Old High School building.

Miss Virginia Marion Bell was educated at Hartland Academy and Gorham Normal School. Miss Bell is exceedingly well qualified for her work and is especially talented in Music. Miss Bell is unusually well adapted to the teaching of the younger grades.

Miss Gladys Rowena Stevens, at her own request, was transferred to the 7th grade at the Junior High School. Miss Bell is taking the grade left open by this transfer.

The resignation of Miss Florence Mable Titcomb to accept a better position at Rockland High School, leaves the Domestic Science Department open at the mid-year.

Mrs. Ada Ross Stewart has been elected to fill out the remaining school year. She comes to this position especially well recommended.

The staff of the Elementary School and the staff of the New High School are, for the most part, well fitted for the work they are attempting to do.

They will compare favorably with any like group in the State of Maine. Four of this group attended Summer Schools during vacation. Miss Margaret E. Harri-man attended Gorham Normal School; Miss Ann L. Hctor attended the University of Maine; Miss Electa C. Chapin attended the Normal School at Hyannis, Massachusetts; Mr. Roger M. Jones returned to his Alma Mater, Bates College, for further instruction. This should strengthen the teaching technique immensely.

One of the immediate aims that confront all school people is to keep the curriculum work at the highest possible level of achievement. We have a commendable pride in bringing into the general set-up, such as the daily work, the best in textbooks, and the latest in instruction within our scope. In this regard I wish to comment on the help rendered by the teachers to pupils who, for one cause or another, need more help

than the regular class time can afford. If pupils have lost time by sickness, or from growth causes, or home environment, we have set up special help-classes which give one forty-five minute period each week for this remedial work. This help is afforded for a considerable part of the year.

Furthermore, this special remedial work provides individual instruction for whatever child can profit by it.

This remedial work has helped to make the general intellectual performance of the grades, taken as a whole, very well balanced. There is still considerable intellectual stretch-out between the upper and lower ranges of intellectual performance in the grades even with remedial work. There is a noticeable decrease in retardation over the conditions where the extra service is not rendered.

The Home Visitation by the teacher should be a policy established by vote of the Superintending School Committee. It should require the teacher to contact the home whenever a pupil is failing or when parent and teacher can render service to the growing youth in any of the many difficult stages of adjustment that have to be made in the course of school advancement. This ruling if operative throughout all departments of the school system would help many a pupil very greatly.

We are trying to do a great deal in the schools in teaching safety. Fire drills are supposed to be carried out frequently and always with a desire to do it with efficiency and despatch. This applies to all schools.

I have one recommendation to make in this regard. I deeply feel that since the Old High School building must be used continuously as a grade building for relatively small pupils, a fire escape should be installed for the pupils on the upper floor. This is a matter that should have immediate action. The central stairways

in the center of this building make this suggestion worthy of your first consideration.

The Milk Lunches have been carried forward, as usual, by the P. T. A. for the undernourished pupils. The hot lunches are being offered through a government commodities project and is an experiment this year.

The usual dental, nursing, and medical inspections have been carried out through this year. There has been excellent attendance this last year with nothing special to report in way of sickness and epidemics.

It is expected that Maintenance costs would rise considerably in the next few years. The New High School should have all the trim and window openings painted, both outside and inside. The floor maintenance in the Gym must have yearly attention, since it is used daily and averages five nights a week during the winter and part of the Spring terms. This applies to every school room in use. The School Committee have recently purchased a machine that may help keep these maintenance costs at a minimum.

The demands which are made during this emergency, that confronts the nation for more and better prepared pupils in the clerical departments of the school, emphasizes the need that exists especially in the Commercial Department at the High School. A splendid job is being done in the purely book instruction of the Commercial subjects, but no equipment has been offered for pupils to know how to use any of the modern machines that are the first essential of an industrial or mercantile establishment. At a minimum cost there could be provided equipment such as comptometers, adding machines, a filing system and a modern bookkeeping machine. If each year there could be added one unit for some such complete set-up, you would soon have the necessary equipment that will meet the present pressing demands. The returns would be an added ef-

iciency that would pay magnificent dividends. The emergency now calls for people skilled in the use of these machines. We have many eager and even brilliant pupils who have ability in this field but we now lack the essential equipment. Your interest is directed to this immediate need.

The Superintending School Committee have desired in every way to comply with the state requirements in regard to keeping up the necessary High School Library commitments. Every High School is supposed to have \$75 worth of new books, added each year to the shelves on biography, literature, sciences, and reference works, over and above the class room textbooks. We expect to make this addition this year. The books are selected by joint collaboration between the High School Faculty and Principal Herbert R. Bean. This year the addition will be outstanding and one set of these books was purchased at a very great reduction from the usual price.

There have been many suggestions regarding the closing of the street in front of the elementary schools during recess periods in the fall and winter weeks of school. There are some 300 pupils now on these grounds and they have to play, in part, in the street. The school grounds will not hold all of them. This is a matter on which we would welcome your reactions and counsel.

It is recognized that it is hazardous for pupils of the elementary schools to play in the street but there is now no alternative. Many of these pupils are very young. Every safeguard is rendered by your police officer, teachers, and the janitor during recess time, but pupils interested in play fail often to note the passing motorized vehicles and are in danger of accident. It is thought by some of your citizens who have carefully studied the situation that, in order to better safeguard the pupils, this street could be closed during play

time at these schools. Your comment and help in this problem is solicited. It might sometime save an accident that would be regretted by all.

Your Superintendent, School Committee, and Teaching Staff are firmly of the opinion that any forward looking programme which can better fit the youth toward that needed maturity, which the present emergency presents us, is our highest obligation. The discharge of that obligation may hold the destiny of all free-peoples in its answer. Public voluntary education must meet and surpass that education which represents force if men are to remain free. Our culture must advance or we are unequal to the demands of freedom. Your support is a large part of that answer to the challenge.

Respectfully submitted,
H. C. HULL.

Mr. Harry C. Hull
Saco, Maine

Dear Sir:

The same routine was used this year as of a year ago in examining the pupils and students of the Old Orchard Beach Schools, whereby I believe every one enrolled was examined and rechecked if physical discrepancies were noted.

As previously I have tried to keep in contact with those students who enter competitive sports and advise them or treat any injury they may receive.

Much credit for handling the examinations in the schools is due Mrs. Harbig and Miss Hoctor.

Very truly yours,

DONALD S. SKILLING, D.O.
School Physician.

To the Superintendent of Schools and Superintending
School Committee:

I hereby submit the annual report of School Nursing.

There have been no serious epidemics during the year. The outbreaks of measles, chickenpox and impetigo were immediately controlled by the usual routine procedure of frequent class room inspection and exclusion of any suspicious contact, extended exclusion in any questionable case.

The nurse assisted following physicians and dentist during examination of pupils and at clinics:

Dr. L. E. Willard, Board of Health Immunization

Dr. D. Skilling, School Physician

Dr. T. LaFountain, Dentist

The pupils were weighed and measured this year by the teachers. Weight and development charts used, children were weighed more frequently and their development observed.

491 pupils were examined by the physician

496 pupils given eye and hearing test

423 pupils examined by dentist

The following defects and corrections were noted:

Six sessions of Vaccination and Toxoid Clinic.

Dr. L. E. Willard, Clinician

39 vaccinated

66 given toxoid

The school now has approximately 90 to 95% immunization against Smallpox and Diphtheria.

The annual pre-school clinic was held in May.

68 children were examined:

48 pre-school

13 school

7 infants

Defects were as follows:

Eyes	2
Ears	0
Nose and throat	10
Glands	1
Heart	1
Lungs	1
General Nutrition	1

Skin	1
Speech	1
Other defects	2

Urinalysis for 27 children attending clinic. New procedure this year was satisfactory.

25 specimens were negative

1 specimen showed positive sugar

1 specimen showed positive albumin

Thus enabling physician to advise parent in regard to proper treatment for child.

Home Hygiene and First Aid classes were conducted in cooperation with the Home Economics department.

Eight pupils qualified for certificates issued by American Red Cross, Washington, D. C.

Milk and hot lunches are being served. The project is enlarged to meet the need of the increased number of pupils who come by bus. It is also being operated on a cooperative basis between School Board, P. T. A. and Woman's project of W. P. A. A full time worker is employed and surplus Commodities are being used. Bread and muffins are being made by the cooking classes in Home Economics department from the issued flour. The C. C. P. & L. Co. donated an electric refrigerator for use in the elementary school lunch room. As many as 80 pupils have been served at school on stormy days and it is interesting to note the improvement in weight and development of the pupils who are recipients of this service.

Again may I express my sincere appreciation to the Superintendent and the Superintending School Committee, Teachers, physicians, Dentist, P. T. A. and other organizations for their cooperation in making possible this program of Health and Welfare for the School children.

Respectfully submitted,

HARRIET E. HARBIG, R.N.

Selectmen of Old Orchard Beach

In Memoriam

During the past year we have had the misfortune to lose two of our former officials who were highly respected business men, both of whom are missed by all who knew them, for their cheerfulness and deep interest in the welfare of the town.

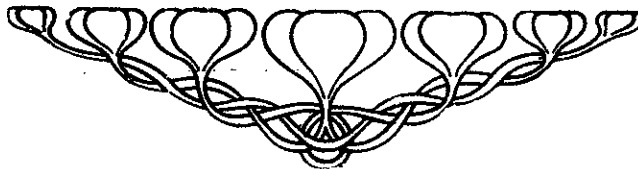

GEORGE T. HINCHLIFFE

George Thomas Hinchliffe at the age of 63, passed away very suddenly on Jan. 17th, 1940, just as he and Mrs. Hinchliffe were starting on a trip to the south. He was born in Lowell, Mass., the son of George and Ann Ellis Hinchliffe. He came to Old Orchard Beach 46 years ago, and not long after formed a partnership

with his brother-in-law King E. Sears under the firm name of Sears and Hinchliffe, which he was connected with until his death. He held the office of Tax Collector, was a charter member of Orchard Lodge, F & AM, and was affiliated with other masonic bodies.

HARRY E. MAGRATH

Harry E. Magrath, was born at Saco Maine on May 22nd 1871 the son of Michael and Elvira Magrath. At the age of four years his parents removed to Springfield, Mass., where they resided until coming to Old Orchard Beach in 1898. He held the position of Road Commissioner for ten years and Selectman for two years, after which he started a garage business with his son Paul, with which business he was connected until the time of his death, which occurred at his home on August 24th, 1940.
