SEVENTY-FIFTH

Annual Report

of the Town of

Old Orchard Beach, Maine

For the Year Ending

December 31, 1957

To the Honorable Board of Selectmen and Citizens of the
Town of Old Orchard Beach, Maine:

It is with a great deal of pleasure that I submit this annual report of the activities of your municipal government for the year 1957.

The work that has been accomplished and the improvement in the financial status of the Town could not have been achieved without the utmost cooperation and confidence given me by all the members of the Board. The patience and understanding of the citizens of the Town have made easier the difficult tasks that had to be done.

There are many problems still to be solved and much work ahead for everyone in order that continued progress may be made in the further improvement of this beautiful beach town.

I want to take this opportunity to thank all my staff and members of the various municipal departments for their loyalty and cooperation since I have been your Town Manager.

I want you all to know how deeply I appreciate your thoughtfulness and kindness during my illness.

Report of Superintendent of Schools

To the Superintending School Committee and Citizens
of Old Orchard Beach:

The annual report of the public schools of Old Orchard Beach for the fiscal year ending December 31, 1957 summarizes in part the year in education at the national and local level and concludes with teacher, pupil, and financial statistics.

1957—A YEAR OF EDUCATIONAL CONFLICTS

Everyone seems to have an answer to what is wrong with the schools in America today. Little Rock, little moons and seemingly little education have confused and frightened many of the good people in the "Land of the Free and the Home of the Brave."

Let us make haste rather slowly and weigh carefully words from men with "Ivory Tower" status who generalize the errors of some into national problems.

It seems to me that the proof of an educational system is the kind of society it develops, the kind of a government it maintains, and the kind of health and happiness that abounds. Our standards of education are being compared with England and the European countries of Russia, Germany, and France. Shall we, in our thinking, move to these countries who have been so successful with their educational programs?

It is a belief that now the sun does set on Great Britain's soil. Have they not lost their great power and wealth as a leader among nations? May we not assume that the product of the German educational system had a part in starting World War I and World War II? And can we determine that Germany is happy today with its divided State under the police guard of three other countries? The so-called government of France is probably the result of a

disciplined educational program that might stand some masses know just enough to follow, is being elevated as a country whose educational system should be copied. "Life Adjustment" courses. And lastly Russia, who educates their leaders well and makes sure at the same time that the

The charges against education in this country in many instances are just and much good will come from national debates on the subject. We will have the kind of an education that the people of this country want. Time and circumstances change philosophies and presently we are going through the painful experience of developing a new philosophy to meet the needs of the challenge by Communism. Let's firm up our education in terms of our freedom and rights and not in terms that dictators have found to be expedient during their short span of life.

PROGRESS IN LOCAL SCHOOLS

Enrichment Program—Action was taken locally to improve the achievement curve for all elementary pupils and at the same time broaden the curricular offering and requirement for the fast learner. Some satisfaction has been gained in the knowledge that this movement was planned prior to the advent of the Russian Sputnik and in advance of national publicity relative to uneasiness in the American educational scene. The program at Old Orchard Beach has been good in the past largely due to the over-all excellence of the teaching staff and it is a hope, with this additional emphasis, to make a good program better. An effort is being made to reduce the number of individual differences per classroom and provide at the same time an opportunity for greater achievement in the 3 R's for each and every child. Classes have been regrouped, as far as possible, to reduce the range of from three or four progress groups in each class to as nearly two as possible. This was arranged in buildings having three or more classes of the same grade level with the purpose of permitting more pupils with similar abilities to gain educational experience together.

It is expected that the teaching will more closely ap-

proach the philosophy of developing maximum resources mentally, physically, socially, and esthetically. This means presenting an educational climate that is both challenging and stimulating to each ability group. Enrichment may be defined then as another way to emphasize the approach to meeting the child's individual need.

Objective—To develop the necessary primary skills in the following: 1. Skills in Creative Writing; 2. Skills in Reading to Remember; 3. Skills in Oral Reading; 4. Skills in Phonetic Spelling; 5. Skills in Practical Arithmetic.

All pupils are expected to learn the essentials of the above skills while quick learning pupils shall be held to an approach to mastering of these skills as all attempt to develop critical thinking and evaluation through exposure to a broad reading program.

At the high school level, emphasis is being placed on better guidance, class placement, and quality of work to the end that the high school diploma will become more meaningful as a standard of achievement.

Local pride and enthusiasm has been aroused in extra-curricular activities during the past year especially in athletics. Old Orchard Beach High School has been outstanding particularly in basketball and football. The 1957 basketball team won the Southwestern Maine "M" School Championship. It was designated as the number 2 team in the state for its class on losing the State Championship game in the closing minutes at Waterville. The 1957 football team was undefeated and scored the highest rating for teams in its class in the State. And lastly, Helen Fournier representing girls' athletics, gained fame for herself and school by becoming the foul shooting Champion of the State.

NEW TEACHERS

Although one new teaching position was created in the high school, the total over-all faculty of 46 remained the same as of last year since a replacement for Mrs. Lillian Lee in girls' physical education was unobtainable.

Mr. Joseph Regina, former St. Louis High School teacher and coach of football, was assigned to a similar position in the high school due to increased enrollments. Following the resignation of Miss Mary Whitehurst who accepted a position with the Katherine Gibbs Secretarial School in New Jersey, Miss Ella Perry of Wollaston, Mass., an experienced teacher in the Commercial field, was engaged to complete the high school faculty with the exception of girls' Physical Education.

Four 1957 graduates of Gorham State Teachers' College and the University of Maine replaced an equal number of teachers who retired from active teaching. Anthony Tsomides of Saco, Miss Barbara Flanagan of Old Orchard Beach and Bernard Neveux of Biddeford received their education at Gorham, while Miss Julie Mahaney attended the University. Miss Flanagan and Miss Mahaney were assigned to the Elementary School following the retirement of Mrs. Augusta Monroe and Mrs. Stephen White after many years of service. Mr. Tsomides and Mr. Neveux accepted positions in the 8th and 7th grades respectively, in the Federal School, replacing Mr. King Bishop and Miss Mary Messenger.

Three additional experienced teachers were secured following the resignation of Mrs. Ella McKenna, Mrs. Bernadette Eagen and Mr. Ralph Dodge who resigned to leave the State. Mrs. Lula Ridlon of South Windham and Mrs. Leone Allen of South Portland were assigned to the Federal School and Mrs. Cordelia Brooks of Island Falls completed the faculty at the Jameson School.

Mrs. Gladys Sawyer of Old Orchard Beach substituted for Miss Alice McCarthy during the fall term while she was convalescing from an operation.

Once again the Old Orchard Beach schools were selected as a training center for an increasing number of practice teachers. The following from Gorham State Teachers' College have been assigned to the three elementary schools during the 1957-58 school year: Robert Corbeil, Nadia Estabrook and Claudette Morel.

Those trained in the high school this year include:

Richard Marshall of the University of Maine, Miss Alice Throumoulos of Nasson College, and Nicholas Zagoriana-kos of St. Aurelius College in New Hampshire.

SCHOOL MAINTENANCE

A schedule of repairs, cleaning, and painting was carried on in the usual manner by the regular school maintenance employees.

Special projects for the summer included: a new furnace in the Old High School as well as the installation of an additional toilet, a new front door entrance to the Elementary School, new stage curtains and drapes in the high school, new classroom shades in the Federal School, and a playground ground fill at the Jameson School.

Under the direction of Mr. Benjamin Downs, many thousands of cubic feet of fill were accepted from the State Road Contractor and used to build up a large play or parking area to the rear and left of the football field. Some of the fill was used, also, to complete the Jameson School grounds.

The unsafe wooden football stands were removed and replaced by modern portable steel stands with the help of local donations to the amount of \$335.00, secured under the direction of Mr. Robert Smith.

FINANCES

Unexpected credits and subsidy were received this year which developed a more favorable balance than usual. The figure of \$6259.94 is available to be used to reduce amounts necessary to be raised for 1958.

The Sinclair Bill passed after the annual March town meeting provided \$2992.00 more than was estimated. We were unable to employ one teacher as planned, another teacher was on part time, and \$2771.00 additional funds were received on a government application to Public Law 874.

Following a very worthwhile workshop for all teachers

on December 6, in which there was an unusual display of modern science textbooks, approval was granted to allocate \$300.00 of this extra government money to elementary building principals for selection of reading table reference books by their teachers. In like manner \$300.00 was granted for the use of high school science teachers for the purchase of science equipment to supplement their current needs.

School expenditures in Maine are still moving upward and will be reflected in the local school budget for 1958.

CONCLUSION

On closing this report I am reminded that no constructive solution regarding the providing of additional space for Home Economics and Industrial Arts has as yet been advanced. To this problem, we must add the fact that Physical Education facilities are totally inadequate for the size of the present enrollment in the high school.

There are re-organization plans possible under the new Sinclair Law which might reduce building needs in Old Orchard Beach for some period of time as well as strengthen the over-all educational program. In brief, the following is one of the possibilities under the Sinclair Act:

1. Form an Administrative District (Old Orchard Beach-Saco).
2. Change present high school to a junior high school (grades 7, 8, 9).
3. Contract with Thornton Academy (grades 10, 11, 12).

An additional long range planning suggestion for the benefit of education in this area, under this new law, would provide a new modern high school through the efforts of Saco and Old Orchard Beach. Thornton Academy, with its fine campus available, might then become a Junior College for students in this locality.

If such an Administrative District is formed, construction aid to the amount of 18 per cent of the costs would be

provided by the state as well as an increase of 10 per cent of the Foundation Program subsidy.

These possibilities are presented for your consideration without recommendation. The way now seems clear for some long range planning as we attempt to meet present needs for a better day in education.

School Nursing Report

1957

To Superintendent of Schools C. J. Cutts:

We opened our year in school nursing for 1957 by continuing the classes started in the previous Fall term on health and hygiene topics with a group of High School Students. We had considerable discussion and reading on subjects of interest to the students—health matters pertaining to the individual and the responsibility of each one to himself, his school, his family and the community. These youngsters showed a good personal responsibility by helping generously on the polio clinics—by bringing in younger children, checking the name lists with the secretary, baby sitting for the mothers with two and three children, and helping in many ways on the whole clinic program.

We are pleased with the job done on the polio clinics during the past two years. During 1957, 1284 shots were given and during 1956, 1783 shots were given making a total of 3,067. On an overall picture we have covered all groups of children from infancy thru teen age as advised by the National Polio Foundation which promoted the polio service thru the Federal government after the Salk serum was discovered. Our thanks and appreciation for their work on the clinics goes to the following persons—Mrs. Jean Fitanides, Mrs. Diana Bird, Mrs. Doris Barth, Mrs. Noella Joncas, Mrs. Gertrude Milliken, Mrs. Helene Fowler and our School Doctor, Dr. Donald Skilling.

We continued our T.B. protection service thru 1957 with our Patch testing program given to all new students in all grade levels, the entire Junior Primary group, the eighth grade and the Senior High School class, plus any child that the State X-ray Clinic asked us to check. Eight children who had a question of T.B. contact and who had reacted Postively on the Patch test were x-rayed thru service from the York County T.B. Association. Fortunately,

these youngsters showed normal lung development on their x-rays.

Again thru 1957 we had help from the Sweetser Home staff thru Mr. Leighton Cheney, psychologist. Mr. Cheney was very helpful to us in evaluating various problems troubling some of our school children. Some 13 children and their parents were in contact with this service during the past year.

The Dental Clinic was limited during 1957 mainly because our Dental Hygienist, Mrs. Doris Homer, was unable to be with us as much as in previous years due to family illness.

The Eye Clinic service took care of the needs of 25 children during the past year. Our school clinic and the local Lions Club co-operated in helping these children.

Toxoid and vaccination clinics were held at the Town Hall regularly thru 1957 and children lacking this health protection were invited to take their "shots" or smallpox vaccination. We urged attendance thru the Fall term as during the previous year we had concentrated on widespread use of polio vaccine so now worked to catch up on any lack of the protection provided thru the triple shots and smallpox vaccination. It has been shown that areas in our country where these preventive measures were allowed to lapse in use diphtheria and smallpox have appeared which is utterly unnecessary today.

The Hot Lunch program as in other years was of good value to us thru 1957. The general business trend has been depressed in our town and nearby area and the lunch and milk program has been a good aid for families hard pressed financially in recent months.

During December of 1957 we had a new service added to our school program thru an advisory service by a Speech Therapist. Six children in the primary grades were examined during December and their parents were given advice concerning their special difficulty. Again we were appreciative of a new help in a problem area.

Respectfully submitted,
AGNES V. MURPHY, R.N.

REPORT OF SCHOOL PHYSICIAN

To Mr. Cecil Cutts, Superintendent of Schools:

The examination of the students in our schools has been completed and with a minimum of absenteeism at the time. A total of eight hundred and seven were examined and only thirty eight were observed who possibly required some medical treatment.

The most explosive of any infections to date was that of the influenza last Fall, though the appearance of other contagious diseases, such as the measles, mumps and chicken pox has just started.

I believe that all the pupils and students in the school system have had the Salk vaccine except as I related last year the parents who did not wish it to be given. Those children of pre-school age have also received the vaccine.

Noteworthy is the appearance in this State of a standardized schedule or routine for examining the pupils in the school system. This calls for four examinations from the

time they enter school until they have graduated from high school. I feel we are doing considerably better in Old Orchard now with an approximate eighty percent of the entire school system being examined every year. We are by no means perfect for I know the more extensive use of technical apparatus would increase our knowledge and possibly reveal abnormalities that now go unobserved.

Very truly yours,
Donald S. Skilling, D.O.

Report of Health Officer

Board of Selectmen and Citizens, Town of Old Orchard
Beach, Maine:

The annual report for the year 1957 is hereby submitted by your Local Health Officer.

It has been my custom to give monthly reports to the Board of Selectmen of my activities so that they might see what I was doing; therefore this report is condensed.

I have had 219 complaints which have been investigated, and corrective action has been taken insofar as the law allowed.

I have called the State Inspectors in on two cases, and I have had the New England Sanitation System in on two cases.

The communicable diseases which have been reported to me are as follows:

German Measles—143
Mumps—33
Chicken Pox—8
Meningitis—1
Acute Streptococcal Tonsilitis—6
Monsleukscytosis infectious type—1
Infectious Hepatitis—1
Measles—2

I have traveled 2,109 miles investigating complaints, and I wish to thank the Town Manager, Mr. Feeney, the

Town Nurses, Mrs. Jean Fitanides, Mrs. Diana Bird for the splendid cooperation they have given me.

Respectfully submitted,

Official Information Bureau

REPORT ON ADVERTISING AND PUBLICITY

To the Honorable Board of Selectmen and Citizens of
Old Orchard Beach, Maine

The year just passed has been especially rewarding for the business people and citizens of Old Orchard Beach and I feel, very sincerely that the expanded advertising and publicity program approved by your board has contributed greatly to the over-all economic prosperity of our community and should be continued in 1958.

I am equally confident, even more business can be brought to Old Orchard Beach by gearing our promotional efforts to reach the new markets that will bring this business during the coming year. Our cost of operation has been continually increasing, just as in any business during the past years. Recognizing this, I appeal for support for an appropriation that will allow us to carry out our program of newspaper advertising and publicity.

Now let us examine our record for 1957. Our appropriation of thirteen thousand dollars was expended as follows: Newspaper advertising—\$7,333.19, Town brochures—\$2,182.82, Miscellaneous maps, publications and conventions—\$560.00, Maine Publicity Bureau—\$600.00, Fishing Survey—\$676.39, Bumper decals—\$175.00, Displays in Canada—\$99.65, Neon Signs and Sign at Kittery—\$230.83, Album of Photos, Town Listing—\$220.00, Postage and Secretarial help—\$179.85, Fireworks—\$550.00, Total expended—\$12,807.73, Balance on hand—\$192.27.

I again request the sum of thirteen thousand dollars with which to continue this program.

Results from newspaper advertising produced thousands of direct inquiries which were answered individually. In 1957, we advertised in twenty-three additional newspapers. We now possess an album of photos for use by newspapers and magazines in publicizing our resort. Our town brochures are eye catching and give a quick, complete

picture of what we have to offer the vacationist. Our fishing survey was our outstanding promotion in 1957, focusing much attention on our town. Twelve of the leading fishermen and members of the New England Outdoor Writers Association were in attendance including four members of the Fishing Hall of Fame. Hundreds of inches of free newspaper space was used by these outstanding writers expounding the friendliness and hospitality to be found at Old Orchard Beach. I have requested our town officials to invite the forty-eight governors to an All Governors Fishing Derby to be held August 15, 16, and 17th.

Membership in the Maine Publicity Bureau, which distributed much of our advertising literature, and our advertising in "Maine Invites You" has contributed greatly to the success of our program.

The Official Information Bureau was again entrusted to my supervision. I was ably assisted by Mrs. Rita Belair and Mrs. Doris Ellingwood. I wish to publicly express my thanks and appreciation for their cooperation.

The operational cost of the Information Bureau is paid by the membership of the Old Orchard Beach Chamber of Commerce. No monies appropriated by the town are used for administrative salaries.

Traffic records show that we routed to Motels, Hotels, Guest Homes, etc., 352 parties consisting of 1,253 persons averaging 3.6 persons per party for an average of 5.4 days. Over 61,000 pieces of literature and 2,000 bumper decals were distributed. 829 individuals traveling by car were routed to their destination and 1,357 road maps were given out.

Our attendance at travel shows in both the United States and Canada, where we had a twenty foot exhibit at the Hartford show and smaller exhibits at different locations in Montreal and Quebec City, drew much attention to our recreational advantages. We mailed in package form over 35,000 brochures to travel bureaus in the United States and Canada.

A new forty-two foot sign board painted in color has

been erected on the Inter-state highway at Kittery, directing traffic to our scenic coastal regions and to Old Orchard Beach.

I wish to express my personal thanks and appreciation to your Honorable Board, to our Town Manager, to our Chiefs of Police and Fire Departments, to the Director of Public Works and to the men and women under their supervision, to the members of the press and to James Cruickshank of the Harry Frost Advertising Agency, for their cooperation.

May I again emphasize the fact that we need every dollar we are requesting with which to advertise the finest of all beaches on the Atlantic coast. Our objectives must be retained on a broad basis, so that we may best serve all sections of our community. Continued cooperation by our citizens in serving on committee assignments will again prove helpful.

It is my belief that this community has enjoyed one of its most profitable seasons. Favorable weather plus a well balanced program was most helpful in attracting summer tourists.

Respectfully submitted,

RUSSELL E. ROSS,

Executive Director,
Chamber of Commerce

Board of Selectmen
Old Orchard Beach, Maine

Gentlemen:

In accordance with Chapter 91, Section 142 of the Revised Statutes of 1954, as amended, an audit has been conducted of the financial records of the Town of Old Orchard Beach for the fiscal year ended December 31, 1957.

The examination was made in accordance with generally accepted auditing standards that pertain to governmental accounting and was conducted by Auditors R. M. Parsons and M. E. Libby of the State Department of Audit. The audit analysis was on a basis consistent with that of the preceding year and included all procedures which were considered necessary in the circumstances.

Insofar as could be ascertained within the scope of the examination, the financial transactions of the Town were appropriately handled, with such exceptions as may be noted in the accompanying comments. Recommendations are offered which are believed worthy of consideration.

The financial and statistical sections, incorporated in this report, present the results of the Town's financial operations for the period indicated.

Respectfully submitted,
MICHAEL A. NAPOLITANO,
State Auditor

TOWN OF OLD ORCHARD BEACH

JANUARY 1, 1957 TO DECEMBER 31, 1957

An audit of the financial records maintained by the various officers of the Town of Old Orchard Beach has been completed for the year ended December 31, 1957.

The examination included a review of cash transactions and an analysis of available funds and expenditures. The results are incorporated in the following text, exhibits and schedules.

The fiscal year's operations showed that available funds exceeded expenditures by \$7,454.26, per the following summary:

| | |
|--------------------------|-------------------|
| Departmental Operations: | |
| Unexpended Balance | \$34,163.11 |
| Overdrafts | 26,708.85 |
| Net Unexpended Balances | <u>\$7,454.26</u> |

The unappropriated balance of excise tax revenue, the overlay and supplemental taxes, and unexpended balances in various operating accounts were the principal factors contributing to the excess of available funds over expenditures. Overdrafts occurred for the most part in the indebtedness, abatement, contingent and street lights accounts.

ASSETS

The cash balance of \$25,522.85 was reconciled with statements furnished by the depository and count of cash on hand. The cash is segregated as follows:

| | |
|---------------------|--------------------|
| General Fund | \$21,993.93 |
| Payroll | 3,385.43 |
| School Construction | 28.49 |
| Petty Cash | 115.00 |
| Total | <u>\$25,522.85</u> |

Other assets were reviewed and unpaid accounts were reconciled with the balances shown on the records of the tax collector, treasurer and town manager. Verification was undertaken to determine the correctness of the outstanding accounts.

LIABILITIES

Insofar as could be determined the general fund liabilities amounted to \$11,646.48. This amount represented for the most part, accounts payable of \$7,450.40 and a demand note obligation of \$2,500.00 due the Old Orchard Beach Library.

DEFERRED REVENUE

Deferred revenue of \$4,072.43 carried forward to the ensuing year for allocation, consisted of 1958 excise tax collections of \$2,275.79, and parking meter revenue of \$1,796.64.

RESERVES AND SURPLUS

The appropriation accounts reflect net unexpended balances of \$37,573.63 at December 31, 1957. This amount represents unexpended balances in various operating accounts that are carried forward to the ensuing year in accordance with legal requirements, by vote of the townspeople, or authority of the municipal officials.

The unappropriated surplus amounted to \$70,627.58, a decrease of \$26,405.11 for the year. The change was caused principally by an authorized appropriation for debt retirement and the reappropriation of prior years' lapsed balances, less the excess of available funds over expenditures and a tax settlement.

DEBT FUND

The debt fund incorporated in the financial statement as a separate fund, reflects outstanding bonds and notes of \$250,500.00 and \$7,500.00 respectively, which are to be retired from future revenue.

CAPITAL RESERVE FUND

The capital reserve fund for fire equipment amounted to \$6,149.33 at the year end. This fund is represented by a time deposit of \$5,578.25 in the Saco and Biddeford Savings Institution and \$571.08 due from the general fund.

DEPARTMENTAL ACCOUNTS

Departmental operating accounts showed an increase of \$81,964.32 in funds raised by taxation as compared with the preceding year. Increases in protection, highway, education and unclassified accounts were the principal reasons for the change. A reduced appropriation for general government was also a factor.

The departmental balances carried forward to the ensuing year increased by \$35,874.96 as compared with the balances at the start of the year. The increase was reflected principally in the health and sanitation, highways and bridges, education, and municipal park accounts.

GENERAL

The review of the town clerk's record of the special town meeting July 1, 1957, revealed that the townspeople authorized the selectmen to pay land damages totaling \$3,000.00 in connection with the construction of the Saco Avenue side-

walk. These damages, as determined by the selectmen, are pending final settlement.

The town received \$4,000.00 during the current year as payment in full settlement of all liability under surety bonds executed by the Maine Bonding and Casualty Company, in behalf of tax collectors for the years 1950 through 1954. From the proceeds the town paid \$1,000.00 for legal services rendered in negotiating this settlement and the transaction is included in the contingent account. The remaining \$3,000.00 was credited to the unappropriated surplus account.

The voucher examination revealed that in some instances vendors' original invoices were not on file, and that payrolls were not on file to support all labor payments. It was further noted that \$600.00 had been advanced to various school principals for the purchase of supplies. Chapter 364, Section 45 of the Public Laws of 1937 provides in part that the Superintendent of Schools shall place all orders for materials and supplies purchased by vote of the committee or directors.

It also was noted that during the year federal excise taxes amounting to \$92.22 were paid to the City Service Oil Company on gasoline and oil deliveries.

The examination of the journal entries revealed that parking meter violation fines amounting to \$904.77 were transferred to the police department account. No town vote was found recorded substantiating this transfer.

Bonds and coupons maturing during the year were not paid until notification was received from the paying bank.

RECOMMENDATIONS

The following recommendations are believed worthy of consideration:

Payrolls and vendors' original invoices should be kept on file to substantiate all expenditures.

Transfer of revenue should be authorized by vote of the townspeople.

A bond and coupon bank account should be established, and deposits made to the account prior to the maturity of the bonds and coupons. As these items are presented for payment they will be charged to the account by the bank. Any balance remaining in the account will be available to pay matured bonds and coupons when presented for payment.

SCOPE OF AUDIT

Count of cash was made and records checked to determine the accuracy of recording cash transactions. The system of internal control was reviewed as pertained to the handling of cash and other matters of financial concern.

External verifications were utilized on a test basis to

determine the correctness of recorded assets and liabilities.

Capital reserve fund transactions were examined. The savings account balance was verified by direct bank confirmation.

An analysis was made of the receipts and deposits as well as expenditures and bank charges. Vouchers, payrolls and canceled checks were examined for a selected period.

Excise tax collections were verified with the copies of the receipts retained by the collector. Education account balances were verified with the Superintendent of Schools. Bond coverage was reviewed.

The financial transactions of the Free Public Library were examined and the cash balance was reconciled with a statement furnished by the depository.

Various laws pertaining to the fiscal operations of the municipality were reviewed to determine that related financial transactions had been properly administered.

Included in this report are exhibits and schedules pertaining to the financial status of the town. Audit procedures were followed to the extent deemed necessary to develop these statements.

In our opinion, the accompanying statement of financial condition and supporting information present fairly the financial position of the town at December 31, 1957 and the results of its operations for the year then ended.
