*“That garden in the margins
of the restless sea.”*

Dorothy P. James

The joy of planting

At Old Orchard the season was three weeks into spring. Standing, in the gray noon, the wind's chill penetrated clothing designed to keep it out. If one hunkered down, as one would for working, it swept just overhead.

A critical time, this, for the planting must be done according to calendar dates, not the weather, and the specified span of days was nearly spent.

The garden was unusual — a narrow plot, mile long, of winnowed sand, pre-mulched and fertilized by sea-winds, seaweed, waves and rain, and shells long empty of their respective inhabitants.

The rite was observed rarely, and people gathered from the town, and from without it, to participate. We were late-comers, strangers actually, though akin at heart, and we came upon the working groups some three quarters of the distance from their starting point 10 days ago.

Instructions were simple: Gather up a segmented rope, an 18-inch long pointed stake, and clums, which bundled are heavy and, though lacking the aroma, resemble rounds of slender leeks. Lay the rope along the sand beginning at the end of a finished row. At the first marking, insert the pointed stake (using a circular motion) half its length into the sand. Withdraw it and gently set three sprigs into the hole, firm the sand around them, and move on to the next segment marking on the rope.

Repeat the procedure until the rope-marked row is planted. Leave a stake's length between the rows and stagger the clums sites in each row — and so on until the portion of the plot is covered, as directed. Move to the ending of the plot rows just finished and begin again.

It took the making of perhaps six holes to perfect the "drilling" art so that blister-raising on the heel of one's hand would not be encouraged. (It would take perhaps six days for one's body to recover from the unaccustomed impositions required for this activity.)

Gathering up clums for bedding in the sand, I examined the slim reeds and found that the leaves serve at least a dual purpose. In the first year, green, they photosynthesize the nourishment required by the plant. Brown and papery in the spring, they jacket against the weather, and splint against the bending winds, the delicate new green shoots springing from the rooty underground.

At the root end, often times I found no filaments to indicate growth potential, and sometimes at right angles to the base of the stalk there was a little living nub extending, reaching as it were, into adjoining space.

Kneeling in the sand regarding the miracle of function, growth, usefulness, and living, I marvelled at the kinship of ourselves and all life's forms (we are only one example in that vast category) and how we all adapt as best we can to circumstance — and I recalled my young daughter's puzzled asking, "Are you sure we aren't related to the trees and flowers, and Mama Kitty?"

Reverently, albeit clumsily, I eased the beginnings of new life into new environment and hoped they would incline well to our northern clime.

I turned to find kinship acknowledged also, in the smiling brown eyes of the planter on my left. I was unaware of the moment when he had arrived beside me. We exchanged no names, but in the few words we spoke, and in the silences between, there was communion of a kind not usually experienced in the busy rushing ways of people. Between the women on my right, working deftly intently, ceaselessly, and occasionally myself, there was intermittent quiet conversation.

Under this sky, in the company of nature in its most vulnerable state and the swishing sound of waves rippling along the beach, there were no cynics, no poses, no veneer. Photographers and newsmen, seemingly out of character with the occasion, but sensing the import of the moment, moved unobtrusively about gathering material for public presentation of the event.

Even the few sidewalk superintendents observed the operation without audible comment. Those seeking information from one another tried to keep the conversation brief. Children's shouts seemed less boisterous than when issuing from yards and playgrounds.

The other world, in which we have our daily dealings, once intruded raucously, almost violently — in the form of motorcycles ridden by some to whom the enjoyment of speed and noise, and wind hard in the face, apparently is enhanced by the symphony of sand and sea — often to the detriment of that fragile beach world.

Regretfully, we left, in all too short a time, with the planting still to be finished by those to whom the burden of the work had fallen and who must complete it within the short remaining hours.

I looked back at the little space I had filled with clums, and knew that in the fall I would return to find the spot again and determine how "my" beach grass had fared in its first growing season.

If I had been careful with the planting, if the grass had rooted well, I would find around each green clump, delicate circles and markings in the sand, traced by slender arcing leaves as they swayed and rustled in the soft sea breeze.

Until then, and the next spring when I can come to see how they have survived the winter, and how their rhizomes have extended, I am content to leave them to the merciful, perpetual ministrations of the mists, and the wild and gentle waters of the sea.

In the interim, may they catch a sum of drifting sand and in its blanket find insurance for continued thriving of themselves, and, provision for a dune's beginnings — which was the whole intent of the thoughtful people who carefully planned, prepared, and planted that garden in the margins of the restless sea.

OLD ORCHARD BEACH ANNUAL TOWN REPORT FOR 1979

This 1979 Town Report is dedicated to:

LORRAINE DOWD
TREASURER

DR. RAYMOND BEGIN

TOWN MANAGER'S REPORT

IN GRATITUDE 1979

by Jerome G. Plante

The year began with the Town finding itself in a fiscal quagmire brought about principally by an injurious lawsuit tying up the issuance of capital improvement bonds and the slow process of collecting monies the Town had advanced for the construction of its secondary wastewater treatment facility from E.P.A. However, in seeking a solution to our financial crisis, a sense of unity was rekindled. Our confidence in the future was restored and a civic spirit permeated throughout the Town giving rise to a renewed community pride, character and purpose.

Understandably, our financial plight was well publicized by the news media. In a few instances, it suffered the pitfalls of drama. One lending institution offered to buy our tax anticipation notes and renege. There was a weekly serial about whether we would make Friday's payroll or not. Would an essential service be curtailed? How long would a particular supplier of fuel oil, gasoline or electricity carry us? Yet, by design and necessity we were open and candid about our financial problems. We had to reduce the "Us vs. Them" syndrome which was developing, and instill the concept of "our" community, in which together "we" collectively share in the satisfaction of achievement, the pains of failing, and the will to find solutions to common challenges.

The most crucial and decisive meeting of the year was held on February 21, 1979. The three most basic elements of our fiscal recovery program were adopted by a unanimous vote of the Council. Such included: 1. An early due date for the collection of property taxes (August 13, 1979). 2. Establishing the highest legal interest rate on delinquent taxpayers - 13½% per annum. 3. Creating a pre-payment tax program paying 8% per annum.

If the Council had hesitated in taking this *initial* action, delayed even a single week, our cash flow was such that the following week's pay-roll could not have been met.

Citizens responded immediately, with one of them saying he knew the Town had spent money it did not have, but "the taxpayers are the Town. You are us. We are you."

We had gained community-wide recognition of a problem and an effort to involve citizens in seeking solutions had been made.

During successive weeks, the recovery program was built upon. The Town Council assumed a more direct degree of responsibility by establishing a Finance Committee made up entirely by its own membership. A reduction in force and a freeze on the hiring of new personnel was acted upon. The Management Letter recommendations from our auditors were adopted as a matter of policy. The Council approved, early in the year, stringent municipal and school budgets.

Toward Spring, the Town contracted with the First National Bank of Boston to principally assist us in the marketing of our long term obligations. An interim nine month financial report from our auditors verified that our revenue projections were pretty much on target and that departments were staying within their budget allo-

cations. Further, all of our financial obligations had been met, our bills were current and our cash flow position restored. This analysis was essential in our successfully refinancing \$610,000 of Funding Notes at a lower interest rate of 8% - a cost saving of approximately \$20,000. Also, in the selling of \$300,000 of Tax Anticipation Notes @ 7.75% for 1980.

At our final meeting of the year, it was reasonable to project an actual positive surplus of about \$70,000.

Of course, our financial recovery plan would not have succeeded without an effective and efficient tax collection effort. By the end of the year, we had collected 87% of '79 property taxes; held two public tax property sales; and, had less than \$6,000 of *matured* tax liens outstanding. One million dollars had been paid in pre-payment of taxes - the taxpayers were responsible for our success!

Although fiscal and financial matters preoccupied much of our time, other significant actions and occurrences became part of the record of 1979.

Pier Agreement: In a combined attempt to have the remains of existing portions of the storm damaged pier taken down and to facilitate the construction of a new amusement pier, a considerable effort was made on the part of the Council to work out an agreement with the Old Orchard Beach Ocean Pier Company. This culminated in the clarifying of issues such as "ownership of land" and "perpetual rights" and the actual building of the structure toward the end of December.

Dune Grass Project: A community project some federal officials called the "boldest conservation project in the Northeast" was activated, chiefly, during two cold weekends in April. One mile of our famous beach had its dunes rebuilt, rehabilitated and replanted. Over 120,000 dune grass culms were planted, on the west side of the pier, by *volunteers* to restore nature's way of protecting the beach-front area.

With limited funds (\$40,000) made available, after a successful appeal, by the Federal Disaster Administration Agency, volunteers were massed to plant and fertilize the dunes which had been reconstructed by the Town's Public Works Department and to install over three and one-half miles of fencing around the replanted areas.

Housing: A community's concern in upgrading its housing stock is a measure of that society's worth. With 124 *newly* approved housing units, valued at 3.2 million dollars (some currently under construction) this Town will have an aggregate of 206 elderly and family facilities. In this instance, there has been no better example of cooperation among the Planning Board, Town Council, private and public developers and administrative staff personnel. Pinewood Manor (50 congregate units - elderly/handicapped), Orchard Terrace (28 elderly units), Pine Brook Terrace (30 units/family housing) will join Pleasantwood Estates (16 additional elderly, to its 20 now occupied), and Ocean Pines (62 elderly now occupied) in improving the lives of our people. All of the above *new* units will pay their fair share of real estate taxes.

We are hopeful that, with approval of our Community Development Housing Rehabilitation program targeting the Campground area so-called coupled with the subdivisions for private homes awaiting Planning Board approval, we shall have a sufficient mix to help many of our year-round people obtain proper housing.

Recreation: A new major outdoor sports recreation area featuring lighted tennis courts and regulation fields and tracks for varied activities was completed this year. Made possible by a \$250,000 grant from the Heritage Conservation and Recreation Service and the State of Maine, the facilities will be available to the entire community.

An initial grant of \$300 and technical expertise provided by the J. C. Penney Stores sponsored by the local Lions Club, received the endorsement of the Town Council to construct an Exercise Trail, in the Spring of 1981, on the Titcomb Farm property. This local service club again donated medical supplies and equipment to our Rescue Unit.

Coastal Zone Management: Old Orchard Beach joined Saco in studying the beach system of Saco Bay - our protective barrier for low lying mainland areas against storm wave damage. This report, made possible by an \$11,500 grant through the office of the Coastal Program of the Maine State Planning Office, is the first step towards a management plan. Subsequently, the Town was awarded another grant (\$4,000) to plan for and establish test plots of dune grass on the East side of the pier.

U.D.A.G.: Old Orchard Beach was designated an Urban Development Action Grant community by the Department of Housing and Urban Development. This should stimulate new, increased private investment for the purpose of revitalizing our local economy and reclaiming deteriorated areas of the Town. Eligibility determination and imaginative projects combined with binding private commitments will help us achieve a reasonable balance among our residential, commercial and industrial endeavors.

Coincident to this announcement, plans were presented to the Council for the Old Orchard Street Mall Project by PEM Engineering. Also, the Council authorized us to apply for a Technical Assistance Grant (E.D.A.) for Business Financing Assistance.

General Projects/ Ordinances: Dirigo Drive (1,500') was accepted by the Council and work began with a Town Road Improvement Fund (State) allocation of \$5,000. This public way leads to our new high school, completed this year (part of a 4.1 million dollar project) and Industrial Park site.

Two lagoons were constructed by our Public Works Department to handle our secondary sludge pending the building (funds applied for through E.P.A.) of a more permanent sludge composting facility.

The Town Council adopted a Special Amusement Ordinance to control the issuance of special permits for music, dancing and entertainment in facilities licensed by the State of Maine to sell liquor. Another ordinance will prohibit sleeping in any public park or public beach during the hours of 2 A.M. to 5 A.M. inclusive.

In the absence of a rule to govern a point or procedure, Roberts' Rules of Order will be used as a final reference.

A Deferred Payment Plan to Mack Trucks, Inc. for funding of our new fire truck pumper was negotiated by the Town.

Old Orchard Beach joined the Maine Municipal Association in self-insuring Town employees under a Workers' Compensation Plan to offset the tremendous increased cost of such programs with possible dividends.

Continental Cablevision agreed with the Town Council to extend its services to the Cascade Road area.

This compendium of events clearly defines an element of progress during 1979. We are grateful to all the citizens who contributed unselfishly in the best interest of the Town.

REPORT OF THE SCHOOL DEPARTMENT

This has been a year of major construction for the Old Orchard Beach School Department. The Junior and Senior High students and teachers shared, in a double session plan, the use of the Loranger School until the close of the school year in June.

The Old High School remodeling work was completed in early August allowing for the move of the Junior High students and teachers to the renovated building for the new school year.

The students and teachers in grades 3-5 shared the Jameson School facilities with the construction crews, moving from one area of the building to the next, as the work progressed, from day to day. This was quite an experience for our students and teachers, however, the well organized contractor moved the project through to completion in April, three months ahead of the projected completion date. As a result of the new addition on the Jameson School, the students and teachers of grades 3-5 were able to enjoy the re-opening of the cafetorium, carpeted classrooms, a new teacher's lounge and office area for the latter part of this year.

The new high school project moved along slowly through the Winter months, however, once the good weather arrived, the sub-contractor crews moved onto the site and daily progress was most evident. By October it was rather certain the new high school would be completed on time and that we could take occupancy with all classes in all areas over the Christmas recess.

The Science Curriculum for all grades was completely organized and ready for implementation in September. The Science Curriculum Committee made up of teachers, students, parents and school principals worked very diligently on this curriculum and produced a very comprehensive science program.

In September, Curriculum Committees were organized for the Career Education Program and the Social Studies Program. In the remaining months of the year, these committees made outstanding progress that will lead to curriculum completion in these areas for the next school year.

In preparation for the school movements, several new professional staff members joined the school system. Mrs. Paulette Belanger was hired to be the new librarian at O.O.B.H.S. Mrs. Belanger holds a B.A. Degree from U.M.O. and an M.A. Degree in Library Science from Rutgers University. Mrs. Belanger had previously served as a junior high librarian in Connecticut for ten years. Mrs. Dawna Dolloff was transferred from her position as Library Clerk at O.O.B.H.S., to the same position at O.O.B.J.H.S. Mr. Keith Arnold was hired to be the new Industrial Arts teacher at O.O.B.J.H.S. Mr. Arnold has a B.A. Degree in Industrial Arts from U.M.P.G. and had previously taught J.H.S. Industrial Arts the past four years in Florida. Mr. Arthur Bennett, the Junior-Senior high I.A. teacher was transferred to O.O.B.H.S., in order to expand the I.A. course offerings to all grade levels in the high school.

Mrs. Rebecca Marino and Mr. John Ladakakos, P.E. teachers of junior and senior high classes, were transferred to the high school in order to expand the Physical Education Program to all grade levels in the high school. Mr. Russell Frothingham, the Elementary P.E. teacher, was transferred to O.O.B.J.H.S. and Miss Cynthia Harnley, a certified P.E. teacher, was hired as Teacher Associate to assist Mr. Frothingham with the junior high program. Mr. Jack Trull, a P.E. graduate of U of M at Presque Isle was hired to replace Mr. Frothingham, as the Elementary Physical Education teacher.

The move to the new high school and subsequently the move to the Loranger School from the Jameson School were accomplished over the two week Christmas recess by our school custodians and a moving company crew with a moving van. The teachers spent at least one day over the Christmas Recess settling into their new classrooms. Fortunately, the winter weather was most cooperative during this two week period of time.

The second Spring School Fair proved to be as financially successful as the previous year and has firmly established this event in the school program. The proceeds of the school fairs will be used to support a cultural arts program for all grade levels in the school system. This program is to be organized by a Cultural Arts Committee on a year to year basis.

The relocation of students in the new expanded facilities came at the right time, as the overall enrollment count increased by forty (40) students this fall. There appears to be several reasons for this up turn in school enrollment that could establish a trend of increased student enrollment for the next several years.

New home construction in the Cascade Road section of town, coupled with additional new units of housing for the elderly on Saco Avenue, a new complex of elderly housing on the Portland Road and a new complex of low rent housing off Saco Avenue, may well generate new families with school age children throughout the Town.

OLD ORCHARD BEACH HIGH SCHOOL - PRINCIPAL REPORT JANUARY 1, 1979 - DECEMBER 31, 1979

January 1, 1979, still found the high school sharing double sessions with the junior high in Loranger School building. Fortunately, by the time school opened in September, 1979, the junior high had moved into their renovated quarters in the old high school building and the high school resumed its normal 8:00 A.M. to 2:00 P.M. schedule. While it was difficult to accommodate all students comfortably within the Loranger building, everybody - students and teachers - all contributed to making the adjustment as successful as possible. We moved from the Loranger building to the new high school over the Christmas vacation of 1979. Though it is a monumental task to move a school's contents from one building to another, all of the schools made the transition with a minimum of confusion.

In September of 1979, the high school opened with 356 students. This number is about the same as last year, but there are indications that the high school population will grow over the next few years before a declining birth rate will allow it to stabilize at about its present size.

Several changes have been made in the faculty this year. Mrs. Toni Cyll replaces Mrs. Jeanne Gardner in English 3, while Mr. Billy Marshall replaces Mr. Paul Nichols in English 4. Mr. Michael Angelosante came over from the junior high school to replace Mr. Paul Nichols, while Mrs. Patricia Magaudda returned to Old Orchard Beach High School to replace Mr. Sal Leone in Special Education.

The music department has continued its excellent work under Mr. David Berthiaume and Mrs. Edna Smith. The Band entered the International Music Festival in Toronto, Canada, in May and again returned with many trophies for its outstanding performances. Again this was all made possible by the generous assistance and hard work of the Music Boosters.

The Athletic Boosters have also had a busy year with many money-making projects. The Boosters have raised enough money each year to sponsor several awards to outstanding athletes, and also to sponsor a Spring Sports Banquet for all students engaged in sports over the year. The town is very fortunate in having two such groups to encourage students.

Twenty-two students signed up to attend courses at Biddeford Vocational School, while about twenty elected to take the Co-operative Education Program. Co-op allows the student to work at various jobs and receive high school credits for participation.

The class of 1979 was made up of 78 students. They have projected their future plans as follows:

Work force	35
Military	3
Married (women)	2
5 year college	2
4 year college	14
2 year college	20
various specialized schools	2

E. Emerson Cummings

The following teachers were members of the faculty for the start of the 1979 school year:

Arthur Bennett	Indust. Arts	Rebecca Marino	Phys Ed.
David Berthiaume	Band	Patricia Magaouda	Spec. Ed.
Paul Brady	Business	Jacqueline Tselikis	Nurse
Raymond Cote	French	Billy Marshall	English
E. Emerson Cummings	Mathematics	Bernard Neveux	Soc. Studies
Toni Cyll	English	Barbara Prentiss	Shorthand
Arthur Dickson	Science	Gerard Proulx	French/Latin
Lawrence Frank	Soc. Studies	Michael Angelosante	English
Ralph Jones	Ind. Arts	Cynthia Pouravelis	Mathematics
Arthur LaChance	Business	Joseph Regina	Soc. Studies
John Ladakakos	Phys. Ed.	Lucille Thibault	Art
Frank Duley	Guidance	Dewey Thompson	Biology
Lillian Latno	Secretary	Marjory Garon	Guid. Secretary
Sandra Lord	Home Ec.	Donna Maguire	Librarian

In addition, 1979 saw a continuation of the federally-funded COPE program at the high school, which offers job opportunities and training for several students. This is under the direction of Mr. Phil Libby, who is at the high school for two days per week.

The School Board and Superintendent Bernard have been extremely hard-working to make this year a successful one. The faculty also is to be commended for its enthusiastic assistance in making the program work in spite of many difficulties. With the opening of the new building, there is no limit to the secondary program which may be built up in the future.

Since this will be my final Annual Report before my retirement in August of 1980, I would like to add the following personal note to my fellow townspeople: for about a quarter-century I have been in daily contact with your sons and daughters. During all of this time I have found them to be wonderful human beings, and people of whom you should be justly very proud. It is easy for a parent - or a teacher - to become at times discouraged with the awesome task of dealing with youth. However, their weaknesses have been the minor ones of the young, but their strengths have been great. They have grown into the hard-working men and women of today, the very people on whom the structure of our civilization depends. You are to be commended for your contributions in making this possible.

Respectfully submitted,
 Jerome A. LePelletier
Principal

OLD ORCHARD BEACH JUNIOR HIGH SCHOOL PRINCIPAL'S REPORT

The following is a report of the Old Orchard Beach Junior High School for the year beginning January 1, 1979 and ending December 31, 1979.

Enrollment:		
Grade 6	—	100
Grade 7	—	93
Grade 8	—	103
TOTAL		296

FACULTY:	GRADE:	SUBJECT:
Mr. Benjamin Grant	6	Math and Science
Mrs. Eleanor Smith	6	English and Reading
Mr. Raymond Scalbrini	6	Social Studies & Reading
Mrs. Sharon Smarc	6	Reading and Science
Mrs. Norma Wentworth	7	English and Reading
Mr. Donald Blodgett	7	Math and Reading
Mr. Louis Ladakakos	7	Social Studies
Mrs. Connie Regula	7	Science
Mr. Ronald Regula	8	Math and Reading
Miss Jeanine Gendron	8	English and Reading
Mr. Richard Cote	8	Social Studies & Reading
Mr. Roger Sevigny	8	Science
Mr. Arthur Bennett		Industrial Arts
Mrs. Patricia Chapin		Home Economics
Mrs. Allison Barr		Music
Mr. David Berthiaume		Band
Ms. Karla Holmes		Art
Ms. Kathy Marston		Resource Room
Mr. Ed. Bogh		Learning Disabilities
Mrs. Jackie Tselikis		Nurse
Mrs. Rebecca Marino		Physical Education
Mr. John Ladakakos		Physical Education
Ms. Barbara McAllister		Teacher Associate
Mrs. Cathy Royce		Teacher Associate
Mrs. Muriel Fortier		Lunch Supervisor
Mrs. Natalie Picard		Secretary
Mr. Eugene Geaumont		Head Custodian

The old high school was renovated and completed on time, so that the Junior High moved into the newly renovated facility.

An Open House was held and the comments from all who attended were very favorable.

The new facility allows for a very flexible program at the Junior High level.

The citizens of Old Orchard Beach have reason to be proud of their schools.

I would like to thank the Trustees, Members of the School Building Committee, School Committee, Superintendent Lawrence Bernard, Dr. Betty Graves and the faculty for their efforts and cooperation throughout the school year.

Respectfully submitted,
 Anthony Tsomides
Principal

JAMESON SCHOOL

The following is a report for Jameson School for the year beginning January 1, 1979 and ending December 31, 1979.

Enrollment is as follows:

Grade 3 (4 classes)	91 students
Grade 4 (3 classes)	84
Grade 5 (3 classes)	82
Grade 4-5 (1 class)	18

TOTAL	275

There were 146 pupils transported to the Jameson School. The children came from the areas of Ocean Park, Portland Avenue, Cascade Road and the Halfway.

In February of this year, we began enjoying the new addition to the Jameson School. The added rooms include two classrooms, a library, a teacher's room and office. Everything was beautiful and enjoyed by both children and teachers. Classrooms throughout the building were carpeted and ceilings lowered by the end of the year, and our cafeteria was opened once again.

Mrs. Ethel Hacket, Mrs. Simone Goulet and Mrs. Jacqueline O'Neill were in charge of serving hot lunch. Approximately 270 children were served each day. Breakfast was served every morning from 8:00 - 8:45 with approximately 90 children served.

Speech Therapist

FACULTY	GRADE
Miss Jane Duhamel	3
Mrs. Natalie Bean	3
Mrs. Hazel Armstrong	3
Mrs. Christine Beaudoin	3
Mrs. Barbara Frost	4
Mrs. Patricia Hickey	4
Mr. Michael Parker	4
Mrs. Marlene Day	4-5
Mrs. Jayne Flaherty	5
Mrs. Jessie Hemphill	5
Mrs. Mary-Ann Gagne	5
Miss Mary Scanlan	Resource Room
Mrs. Linda Moutsatsos	Speech Therapist
Mrs. Alison Barr	Music
Miss Karla Holmes	Art
Mr. Russell Frothingham	Physical Education

In closing, I wish to express my sincere appreciation to Mr. Lawrence Bernard, members of the School Committee and parents for their excellent cooperation over the past year. I also wish to thank the teachers for their hard work and dedication to the children.

Respectfully submitted,
 Mary Brady
Principal

ELEMENTARY SCHOOL PRINCIPAL'S REPORT

The following is a report of the Elementary School for the year beginning January 1, 1979 and ending December 31, 1979.

Kindergarten (4 classes)	89 students
Grade 1 (3 classes)	79
Transitional I (1 class)	11
Grade II (4 classes)	93
TOTAL	272

166 of our pupils were transported to school and came from the following areas:

Union Avenue	48
Halfway	53
Ocean Park	29
East & West Grand and Portland Ave.	36

Report cards were sent home with first and second graders four times during the year. Kindergarten Check-lists were sent home three times and conferences were held in the fall. An Open House took place in December. Many parents were welcomed to the classrooms. This provides a good opportunity for parents to examine materials used in the classroom and discuss their child's progress with the teacher. Since home and school cooperation is so important, parents are encouraged to visit the classrooms throughout the year.

Mrs. Mary Brady and Mrs. Elizabeth Regan were in charge of our cafeteria. Breakfast, hot lunch and classroom milk were served throughout the year. Our policy for free and reduced price meals and milk enables us to serve many needy children.

All students had insurance coverage which applied only to the school day and school related activities. This coverage is provided by Massachusetts Indemnity and Life Insurance Company and is a plan sponsored by the State Principal's Association. Family insurance coverage must be applied to a claim before the school insurance coverage takes effect.

Mrs. Margaret O'Neill is the Coordinator for Special Education in the school system. She has charge of Learning Disabilities classes here at the Elementary School. Assisting her in this building are Miss Gloria Schmit, Mrs. Margaret Smith, Mrs. Sharon Weeman and Mrs. Debra Goding. Speech, another special service provided by the school, is taught by Mrs. Linda Moutsatsos. Referrals are made by the classroom teachers. A Pupil Evaluation Team consisting of teachers, administrators, parents and special education consultants meet to discuss data on the pupil referred. The team recommends placement of the pupil within the program when necessary.

We have continued the transitional first grade classroom which was established for children lacking the reading skills necessary to function successfully in a regular first grade. The Early Childhood Preventative Curriculum has experienced much success in this classroom under the direction of Miss Sharon Staebell. This is a nationally validated pre-reading program which is sequentially developed with diagnostic prescriptive pre-reading skills. Aid to the child in need of reading help is extended through increased reading time and activities designed specifically for the child's needs. Success with the program and high interest among first grade teachers prompted Miss Staebell to apply for a Title IV-C Adoptive Grant which was approved. A training session for all first grade teachers was conducted in August for three days, by Miss Staebell. In the fall, through group screening in all first grades, we attempted to identify children lacking in the necessary pre-reading skills. These children participate in the ECPC program in the transitional classroom at a specific time each day where a diagnostic prescriptive program is pursued. The instruction for these children, in both classrooms, is geared to each child's individual level. This promotes successful learning, results in increased student motivation, and exerts a positive influence on student behavior. The ECPC works well with our established reading programs as children move into them as they are ready.

Our Alpha Program, for gifted children, is well under way. Materials ordered for this program have been organized and are available to teachers. Second grade teachers have volunteered to work with this selected group of children. Three working groups exist at this time. It is hoped that this program will be expanded next year.

A School Fair was held in the spring with all schools taking part. Elementary students contributed plants and hand made items. Again this year, the fair was a financial success. The committee decided to use the profits to foster an appreciation of the arts.

Fair funds were used for a presentation by the Peanut Butter Readers this fall. The children thoroughly enjoyed this show. The performance was a rollicking, captivating adventure into the fantastic world of books. Stories ceased to be mere words and came alive on stage and in the minds of the audience. Through their skills in oral interpretation, the Readers captured the imagination of the audience.

Everyone is busy packing as the year draws to a close. All classes will be moving to Jameson and these two old buildings will be closed. Many memories will remain. However, we are all looking forward to the new facilities at Jameson.

As a final note, I wish to express my sincere appreciation to Mr. Bernard, the School Committee, parents and staff at the Elementary School for their cooperation at all times.

Respectfully submitted,
Lois A. Martin
Principal

SCHOOL NURSING SUMMARY - 1979

Fall sports physicals were done by our School Physician, Dr. Andrew Candelore for the high school and junior high school students. These totaled 153. Any medical problems were reported to parents and a second physical was requested if necessary by the family physician.

P.P.D. Tuberculosis tests were given to all teachers and employees in the school system by the school nurse. This number totaled 119. No active cases of T.B. were found.

The Vision Screening Program was supervised and carried out for the children in grades K, 1, 3, 5, 7 and 9, plus driver education by Dr. Steven Polakwich. Vision is a key factor which directly influences the child's learning ability, daily activities, and potential in the classroom and life. This has been a valuable tool for the teachers and many children are referred to the nurse for testing who are having reading problems or signs of any visual difficulties in the classroom. Many thanks to our Lions and Kiwanis Clubs for their assistance in obtaining funding for glasses for some of our children.

Audiometer hearing tests were given by the School Nurse to grades K, 1, 3, 5, 7 and 9 and other children referred in for testing.

York County Health Services offered clinics in Old Orchard Beach at the Salvation Army every two months for children pre-school to age 18 for checkups, inoculations and health advice. These clinics are also available in Biddeford every month and O.O.B. children are eligible. This is a low cost alternative for health care and is easily accessible for our families.

The immunization update was done for all students K-6. This was a lengthy process and constant "prodding" was necessary in order for them to be in compliance with State requirements.

The State of Maine health laws require all children be properly immunized before they are eligible for admission to the schools, however, there is a grace period until December 15, before mandatory exclusion from school is necessary. This is necessary to protect all of our children from disease as well as, keep our community a safe area to live in.

Problems of personal care have been discussed in the classrooms and hair and skin conditions reported to parents. Films and discussions on alcohol, smoking and drugs have been included in the curriculum and individual conferences regarding health related problems have been held with some students and families. Daily first aid assessments average between 10 and 20 per day and necessary messages for home care or possible medical follow up are sent or telephoned to parents.

Our services for the handicapped are excellent and follow State guidelines. We have a physical therapist and occupational therapist who work with children and teachers to help them with their daily activities and skills on a part-time basis.

Referrals have been made to the children's Dental Health Clinic, Saco Audiology, Ophthalmologists, family physicians, York County Health Services, Schol Home Counselor, Webber Emergency Room and to the school's special education services.

The flu virus took its toll on our student population this winter but we weren't affected as severely as Cumberland County.

This has been a rewarding experience for me, and I have been impressed by the caring and devoted school personnel at every level. Old Orchard Beach should be proud of its schools and the extra effort demonstrated by the Superintendent, School Board, Curriculum Director, Special Services, and especially the teachers. It has been a pleasure serving this community.

Respectfully submitted,
Jackie Tselikis, R.N.
School Nurse

CONCLUSION

As evidenced in all the reports, this has been a very busy year for the Old Orchard Beach Schools. The numerous accomplishments were realized through cooperative attitudes and commitment on the part of school personnel, central office staff, school committee members, town officials, parents, students and concerned citizens. I believe with such commitment and cooperation, we will continue to attain the goals that we have established for our educational program.

Respectfully submitted,
Lawrence C. Bernard
Superintendent of Schools
December 31, 1979

ANNUAL REPORT OF PARK COMMISSION - 1979

The gas shortage did affect the Park Commission and the Municipal Parking facilities this past year. Revenues were down anywhere from 50 to 60%.

Vandalism is the biggest headache that the Park Commission has had during the last two year, with this past year being the worst in the history of the Park.

Oddly enough, most of the vandalism is perpetrated by our own local youth which indicates that there is a complete breakdown in the family structure as it pertains to parental knowledge of the whereabouts of their children. Singly, the youth are well behaved, but as a group they constitute, in one word, what in the Middle Ages was the scourge of the world, and which still does strike fear in the hearts of men - *VANDALS!*

To cite examples of the type of vandalism perpetrated by our own hometown youth during the Fall (Labor Day to the opening of school) and in the Spring (last day of school to June 1) and during school vacations:

Two five foot long, six inch thick solid granite wings of the War Memorial (with two bronze plaques on them) were tipped over three days prior to Memorial Day, resulting in a \$600 re-erection of same, by a group of eight to ten local youths, ranging in age from ten years to fourteen years, who were observed on the bandstand just prior to the Memorial incident. In addition to the Memorial incident, every single balustrade of the bandstand was removed, as well as the headboard bearing the name of John Trull, for whom the bandstand was named and dedicated, to parts unknown; windows were broken in the toll booth; and the booth broken into; the lanyard and halyard on the flagpole were cut; the two lights for the War Memorial were completely destroyed; the drinking fountain tipped over and damaged.

One whole corner of the tennis court fence was peeled away, much like a sardine can. All these acts of vandalism did not occur during the summer season!

The resultant cost of these various so-called "pranks" will amount to at least \$10,000 for repair and must come, not from the taxpayers, but from parking revenues. The solution, the hiring of a security patrol of Park Commission Police Officers who would relieve the overburdened Police Department.

One aspect of helping to reduce vandalism in the Park would be enforcement of the "Curfew Law" which is still on the town books. Let's get back to basics and know where our kids are. As it is now, as far as the Veterans' Memorial Park is concerned, **NOTHING IS SACRED!**

Ernest Brousseau,
Chairman, Park Commission

ANNUAL REPORT FROM YORK COUNTY HEALTH SERVICES - 1979

York County Health Services, Inc. (YCHS) is a private, non-profit, certified, and accredited community health agency. Offices are located in Saco, Limerick, Wells and Sanford. From these offices, professional nurses, physical and occupational therapists, speech pathologists, social workers, and home health aides are dispatched to homes and clinic sites in nearby towns throughout York County.

During 1979, YCHS staff provided care to 696 residents of Old Orchard. Service to those who are unable to pay the costs of care are made possible by municipal support to the Home Care and Maternal-Child Health/Well Child Clinic programs, by county support to the Adult Clinic program, and state support to the Early, Periodic Screening, Diagnosis and Treatment (EPSDT) program.

Program	Clients	Visits
Home Care of the Sick	88	1901
Maternal-Child Health Guidance	55	368
Well Child Clinics	147	180
Adult Health Clinics	251	574
EPSDT	<u>155</u>	<u>298</u>
TOWN TOTAL	696	3321

This represents 7% growth in service, while the funding request to the town has remained the same.

Old Orchard Beach residents also benefited from Home management of Diabetes classes in French or English and/or remained out of institutions with Continuous In-Home care. Physical and occupational therapists from YCHS regularly evaluate, plan, and implement rehabilitation services to developmentally disabled students by contract with the Old Orchard Beach schools and York County Special Education Compact.

A school health program is provided by Jacqueline Tselikis, R.N. from the Maternal-Child Health Program.

Much of this service has been made possible by the able assistance of local citizen volunteers. With such community support, YCHS can continue to develop community and home health services which are responsive to Old Orchard Beach citizens' needs.

Shirley A. Ouprie, R.N.
Executive Director

P.O. Box 507
Two Canal Plaza
Portland, Maine 04112

Honorable Chairman and Members of
the Town Council
Town of Old Orchard Beach, Maine:

We have examined the financial statements of the Town of Old Orchard Beach, Maine as of and for the year ended December 31, 1979 as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets, and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report.

In our opinion, the aforementioned financial statements present fairly the financial position of the Town of Old Orchard Beach, Maine at December 31, 1979 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The examination referred to above was directed primarily toward formulating an opinion on the aforementioned financial statements of the Town of Old Orchard Beach, Maine, taken as a whole. The supplementary data included in Schedules 1 and 2 are presented for supplementary analysis purposes and are not necessary for a fair presentation of the financial position and results of operations of the Town of Old Orchard Beach, Maine. The supplementary data have been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, are stated fairly in all material respects only when considered in conjunction with the financial statements, taken as a whole.

Peat, Marwick, Mitchell & Co.

February 15, 1980

TOWN OF OLD ORCHARD BEACH, MAINE

Notes to Financial Statements

December 31, 1979

1. Summary of Significant Accounting Policies

The accounting policies of the Town of Old Orchard Beach, Maine conform to generally accepted accounting principles applicable to government units. The following is a summary of the more significant of such policies.

A. Basis of Presentation

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, reserves, fund balances, revenues and expenditures. The various funds are summarized by type in the financial statements. The following fund types and account group are used by the Town.

Governmental Funds

General Fund--The general fund is the operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. The fund pays the general operating expenses, the fixed charges and the capital improvement costs that are not paid through other funds.

Capital Projects Fund--The capital projects fund is utilized to account for all resources and project authorizations used in the acquisition and construction of capital facilities and other fixed assets.

Account Group

General Long-term Debt--This account group is established to account for long-term debt which is backed by the Town's full faith and credit.

B. Basis of Accounting

The modified accrual basis of accounting, under which expenditures, other than interest on long-term debt, are recorded when the liability is incurred and revenues are recorded when received in cash unless susceptible to accrual, i.e., measurable and available to finance the Town's operations, or of a material amount and not received at the normal time of receipt, is followed by the governmental fund types.

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

Revenue sources which are being accrued include property taxes, charges for current services and intergovernment reimbursements. Major revenue sources not being accrued are automobile excise taxes, licenses and permits.

Budget data as presented for the general fund also utilizes the modified accrual basis of accounting.

C. General Fixed Assets

The Town does not maintain a record of its general fixed assets. Expenditures for property and equipment are charged against departmental operations whenever such items are purchased.

2. General Fund--Designated Fund Deficit

At December 31, 1979 the designated fund deficit of \$2,884 consisted of the fund deficit for the Town's School Department which operates on a fiscal year ending June 30, 1980.

3. Town of Old Orchard Beach School District

The Town of Old Orchard Beach School District is a separate entity from the Town. The purpose of the school district is to fund the renovations of existing school buildings. The school district has the power to assess the Town for its expenditures, including debt service. Annual assessments approximated \$216,720 and \$70,000 in 1979 and 1978, respectively. Debt outstanding as of December 31, 1979 is \$1,210,000.

4. Property Tax

Property taxes for the current year were levied June 28, 1979 on the assessed value listed as of the prior April 1 for all real and personal property located in the Town. Taxes were due August 14, 1979. The last revaluation occurred in 1976. The assessed value for the list of April 1, 1979, upon which the 1979 levy was based, was at approximately 90% of the estimated market value.

5. Deficit Bonds

On October 15, 1979, the Town issued \$610,000 in deficit bonds at 8% to help finance an accumulated deficit in the undesignated fund balance of the general fund.

The liability for these bonds is recorded in the long-term debt group of accounts. Proceeds from the bonds are recorded as an addition to fund balance in the general fund and are classified as "Fund balance provided by deficit bonds".

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

In future periods, reductions of the outstanding principal balance on these bonds will be charged directly to fund balance provided by deficit bonds.

6. Pension Plan

The Town is a member of the Maine State Retirement System which covers all full-time permanent Town and school employees. The system requires that both employees and the Town contribute and provide retirement, disability and death benefits. Employees are eligible for normal retirement upon attaining age sixty and early retirement after completing twenty-five or more years of creditable service. The Town's contribution for 1979 approximated \$70,000.

The unfunded accrued liability outstanding as of July 1, 1979 was \$273,975 which will be amortized over eight years.

7. Debt ObligationsLong-term Debt

The following is a summary of debt transactions of the Town for the year ended December 31, 1979:

	<u>General obligation</u>
Bonds and notes payable, January 1, 1979	\$ 4,804,811
Additions:	
Deficit bonds	610,000
Fire truck note	96,332
Less debt retired	<u>372,049</u>
Bonds and notes payable, December 31, 1979	\$ <u>5,139,094</u>

The Town is subject to state law which limits debt outstanding to a percentage of its last state valuation. At December 31, 1979, the limitation for the Town of Old Orchard is \$15,687,000, leaving the Town with a margin of \$10,547,906.

The annual requirements to amortize all long-term debt outstanding, including interest totaling \$2,429,155, are as follows:

1980	\$ 762,195
1981	726,545
1982	692,223
1983	665,103
1984	599,953
1985-1989	1,970,055
Thereafter	<u>2,152,175</u>
	\$ <u>7,568,249</u>

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

Overlapping Debt

The Town is situated in York County and is, therefore, responsible for its proportionate share of the County's general obligation debt. At December 31, 1979, the County's bonded indebtedness is \$1,105,000 of which 5.75% or \$63,500 is the Town's proportionate share. The Town's share of this debt is amortized through annual assessments by the County.

8. School Debt

The State of Maine currently reimburses the Town for the financing costs of school building and school bus purchases. Continuation of such reimbursement is dependent upon continued appropriations by the state legislature.
