

NON-RESIDENT PARKING PERMITS

2026 SUMMER SEASON—FRIDAY, MAY 22nd TO SEPTEMBER 9th (exception \$300 permit)

\$150 PERMIT

Do you have someone that is working downtown for the summer? Great for someone that doesn't live in OOB, but wants to park in the Milliken Street lot during the day (6 a.m. to 2 a.m.) all summer season. The plate number is interchangeable, so if someone else wants to use that permit, the permit holder can go online and change the license plate at any time and it is effective immediately.

\$300 PERMIT

Staying in OOB for the summer, but do not have room for a second or third vehicle? This permit will allow a vehicle to park in the Milliken Street parking lot 24/7 for the summer season. At any point, you decide you want to park a different vehicle there, you can go online and change out the plate, and it is effective immediately. It's great when people visit OOB in the fall, so we have this permit through October 31st.

\$100 TEMPORARY PERMIT

(fee increased from \$50 in 2025)

Are you visiting OOB for a week, and you don't have enough room where you are staying for that second (or third) vehicle. With this permit, you will pick the start date you want, and it will end in seven (7) consecutive days. Again, you can switch out that vehicle within the seven (7) days if another vehicle needs to park there. This covers one vehicle at a time, and allows 24/7 parking in the Milliken Street parking lot.

\$1,000 PERMIT

Our newest addition. Do you have an OOB business license for a short-term rental, hotel/motel, Bed & Breakfast, to name a few...

This permit is for two (2) vehicles to park downtown at the same time all summer. The vehicles can be parked in the Milliken Street Parking Lot, the Memorial Park Parking Lot, the Town Hall after office hours and on weekends, and six-hours at any of the parking kiosks. Both vehicles can also park overnight in the Milliken Street parking lot. The owner of the permit (business license holder), will have a user name and password, and can change out the plates anytime. So, tourists are renting from you for a week. You can give them that extra attention by putting their (2) license plates into the system while they are renting from you. When they leave, and your next renters come in, you can change the two (2) license plates to the new renters.
